

## 2 IN 1 BIO-ACTIV LAUNDRY

Respect fibers and colors. Intense colors for always clean garments.

### ADVANTAGES:

- it is safe for the operator as it does not contain skin irritants
- it is not dangerous as it is not flammable, nor corrosive or toxic
- it is a product formulated with highly surfactant and detergent substances
- can be used with water of any hardness
- easy to rinse
- reduced consumption

### METHOD OF USE AND RECOMMENDATIONS:

- Follow the dosage shown in the table
- Follow the instructions on the label of the garments
- Wash the garments separately during the first wash
- Pre-treat if necessary by pouring a little product on the stain by rubbing

### HANDWASH

Pour 1 cap of product (one cap = 80ml) into 4 liters of water

### MACHINE WASH

Pour the detergent into the washing machine compartment dosing it with the cap (one cap = 80ml)

### BIO TENSIO-ACTIVE

Newly developed detergent for washing in cold or low water temperature of all types of fabrics: colored, white, black, cotton, hemp, linen, silk, wool, delicate, acrylic etc.

Thanks to its special stain remover formula it is effective on over 100 types of stains: it hydrolyzes proteins by breaking them into smaller fragments that are easily eliminated. Helps maintain the degree of whiteness, thanks to the anti-redepositing activity it carries out during the wash. Prevents the infiltration of wool and shrinkage of the fibers while maintaining the shape and the elasticity of the garments. It also retains the vibrancy and brilliance of the colors.
