

CLEANER

ACTIVE CHLORINE ALKALINE SANITIZING DETERGENT FOR C.I.P.

FIELDS OF USE

Processing milk cheese eggs Meat poultry and fish processing
Bottling of mineral waters, wine, beer, edible oils, fruit juices, distilleries Industry of vegetable preserves

ADVANTAGES

CLEANER is a concentrated alkaline solution of sodium hypochlorite (minimum active content 4.8%) and is used at a low dosage, allowing the containment of consumption and costs.
CLEANER has a broad spectrum of action.

CLEANER works well over a wide pH range and temperature range and is environmentally friendly.

RECOMMENDATIONS FOR USE

The product should be used at a dosage of 1 to 3%.

In C.I.P. systems it is recommended to carry out alkaline cleaning of the system with CLEANER then rinse with water.

CLEANER is used in sanitation by recirculation (C.I.P.) or by immersion in food production and distribution.
