

MISTER DEO CRYSTAL FOR VACUUM CLEANERS

The perfumed crystals of Mister Deo Crystal inserted in the bag of your vacuum cleaner give off a continuous and pleasant scent during suction that spreads throughout the room. The crystals contain essences that immediately release their scent during use.

RECOMMENDATIONS FOR USE

Just vacuum the crystals with a common bag vacuum cleaner.

The crystals are distributed evenly in the bag, releasing a fresh, clean scent.

You can adjust the amount of crystals to be sucked according to your personal preferences.

Particularly suitable for perfuming environments where pets live.
