

HYGIENE BATHROOMS WITH ALOE

Bathroom hygiene with aloe vera is a detergent more suitable for the daily hygiene of sanitary ware, ceramic floors and bathroom tiles.

Thanks to its special adhesive formula, it thoroughly cleans showers, sinks and sanitary items in general.

The distilled aloe vera water contained in the formula gives the rooms an unmistakable clean scent.

ADVANTAGES

- distilled aloe vera water respects and hydrates the skin and is hypoallergenic;
 - it is not dangerous as it is not flammable, nor corrosive or toxic;
 - it is a product formulated with highly surfactant and detergent substances;
 - it can be used with water of any hardness thanks to special softening agents;
 - guarantees a total absence of limestone patinas;
 - its special formula ensures effective rinsing
 - reduced consumption thanks to immediate solubility and foaming,
 - the delicate floral fragrance perfumes the rooms for a long time;
- concentrated formula that translates into a considerable saving of packaging that pollutes the environment and a reduction in costs for the user since it saves on packaging costs and on the costs of transporting unnecessary volumes.

METHOD OF USE

The product is concentrated ready to use.

Pour a few drops on the sponge, apply on the surfaces and then proceed with rinsing.
