

PODEOS

Podeos is a shoe deodorant able to prevent the formation of bad odors for 48 hours. A daily application ensures dry, fragrant shoes and a pleasant refreshing action. Its formula has been studied to eliminate the proliferation of microorganisms, which are the cause of bad odors. It is also active against the Tricofitone.

ADVANTAGES

Podeos naturally refreshes the shoe, thus preventing the formation of bad odors. Gives a prolonged feeling of freshness. Its composition allows immediate action. It does not grease, does not stain and does not leave streaks on footwear. It does not include parabens in its formula.

METHOD OF USE

Shake before using.

Spray evenly inside the shoe before and after use. Allow the shoes to dry before putting them on.

Clean the outer surface of the shoes after use.
