

NEW MAKED BAR

LIQUID COMPOUND OF BIG POWER FOR CUPS WASHING MACHINES

USES

NEW MAKED BAR is a liquid compound of great power for washing machines cups specifically formulated to remove stains and greasy that remain on the surfaces of coffee cups, tea cups and so on.

NEW MAKED BAR can be dispensed through the power supplies of dishwasher products, manual or electronic.

In the case of the absence of a power supply, **NEW MAKED BAR** may also be placed by hand.

ADVANTAGES

NEW MAKED BAR is extremely economical due to its concentrated formula.

NEW MAKED BAR is a compound that ensures a balanced action of full effectiveness.

NEW MAKED BAR is active both for hard water and for sweet water, without damaging the enamel of the finest porcelain or making opaque glass and metals.

SUGGESTIONS FOR USE

For best and cheapest results, **NEW MAKED BAR GLISTEN** should be dispensed by a dispenser for detergents similar or equal to those provided on loan for use by CITITALIA, in any case we recommend the use of a dispenser equipped with a knob for calibration. Indeed, this is directly linked to the washing water hardness parameters.

It can however also be dosed by hand.
