

NEW MAKED

LIQUID COMPOUND OF GREAT POWER FOR DISHWASHER

USES

NEW MAKED is a compound of high-powered liquid for industrial dishwasher specifically formulated to remove stains and greasy that remain on the surfaces of dishes, cutlery and glasses.

NEW MAKED can be dispensed through the power supplies of dishwasher products, manual or electronic.

In the case of the absence of a power supply, **NEW MAKED** can also be issued by hand.

ADVANTAGES

NEW MAKED is extremely economical due to its concentrated formula.

NEW MAKED is a compound that ensures a balanced full effective action.

NEW MAKED is active both for hard water or for sweet water, without damaging the enamel of the finest porcelain or making opaque silver cutlery.

SUGGESTIONS FOR USE

For the best cheapest results **NEW MAKED** should be dispensed by a dispenser for dishwashing detergents similar or equal to those provided on loan for use by CITITALIA, in any case we recommend the use of a dispenser equipped with a knob for calibration. Indeed, this is directly linked to the rinsing water hardness parameters.

It can however also be dosed by hand using a small coffee cup in the first wash, add a cup every 10 washes.

FEATURES - COD. 51D67 / NEW

Composition compound liquid detergent

Flammability Non-flammable

Toxicity Non-toxic
