

Cleanbox

Neutral Detergent Double Concentrate

Not Toxic, Harmless For Man And Animals

APPLICATIONS

Cleanbox is a double neutral concentrated detergent formulated for cleaning all the environments, where live animals.

Cleanbox due to its high cleaning power attacks the organic substances and dung.

Cleanbox also is not toxic, is, therefore, harmless and safe for use.

ADVANTAGES

Cleanbox is not flammable nor corrosive and has a neutral pH. This is the reason why you can use it in solution with BACTER to get a bio-surfactant action eliminating unpleasant odors

Cleanbox is a formulation containing highly surfactant and detergent substances.

Cleanbox also contains the agents for softening the water, so it can be used with water of any hardness.

APPLICATION TIPS

FOR GETTING THE PRODUCT READY TO USE DILUTE 1 PART WITH 3 PARTS OF WATER

PROCEDURE:

daily cleaning diluted in reason of 80gr per 8 liters of hot water. Apply the solution thus obtained on the surface to be cleaned with a cloth, leaving acting, then rinse. Practicing more dilutions according to the dirt.

Cleanbox thanks to its special formula can be used in addition to the organic crops of BACTER as its formulation does not alter the function of the bacterial colonies. Indeed it acts synergistically to BACTER increasing the effectiveness of the individual products, thereby, obtaining a bio-surfactant action. Pour into 80 ml of washing solution Cleanbox
